Allowable Subject Matter

1. Claims 1-24 and 33-38 are allowed.
2. The following is an examiner's statement of reasons for allowance: the instant application is deemed to be a nonobvious improvement over the invention patented by Peotter et al. (U.S.P. 5,599,470). The improvement comprises a drawer disposed inside of the welding-type power supply between a top of a frame and a base. It is not clear that the storage compartment of Peotter et al. is in fact a drawer. Also, the storage compartment of Peotter et al. is located within the base 3 instead of between the base and top of the supply frame.

Further improvements also comprise a storage compartment removably disposed within an enclosure with welding-type electronics, a storage compartment sized to accommodate a welding torch wherein the compartment is slidably disposed inside of a welding-type power supply's closed volume, a drawer disposed inside of a welding-type power supply and supported by a lift eye, and a retractable storage compartment positioned between a chassis cover panel and a chassis with welding-type electronics.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
